

Product Comparison

Reverse damage and refresh a roof with Peak 301, the all-natural, do-it-all solution that extends the life of roof shingles. One application will add at least 6 years to the roof and is proven to work better than other shingle rejuvenators on the market.

ASPECT PROPERTIES	CONTROL	PRODUCT A	PEAK 301	BENEFITS
COLOR GRAY SCALE		-25%	-1%	Effects on shingle color
GRANULE ADHESION		-18%	8%	Improves resistance to hail damage
TEAR STRENGTH REDUCTION		30%	16%	Tear resistance impact to shingle
FIRE RESISTANCE (BURN PATTERN)	44"	29"	14"	Controls the spread of fire per area
HAIL IMPACT DOUBLE LAP	Pass	Fail	Pass	Maintains hail resistance
HAIL IMPACT DOUBLE LAYER				

*All findings are the result of independent testing completed by globally-recognized laboratory, PRI Group.

> Improve

Peak 301 improves the individual granule adhesion within each shingle, building resistance to hail and extending the shingle's useable life.

> Innovate

With Peak 301's chemistry-correcting formula, shingles are flexible enough to bounce back from inclement weather and durable enough to do it for years.

> Warranty

Backed by the industry's longest warranty, Peak 301 delays the need for a complete roof replacement at a fraction of the overall cost.

> Science

The science inside Peak 301 is designed to do more than just sit on the surface of your roof. It repairs damaged shingles down to the most basic building blocks.
